Take advantage of our quality DPF cleaning special at our Brampton and Cambridge locations which uses the FSX complete DPF cleaning system.

Pick Up and Delivery is Available

Advantages of Maintaining your DPF:

DPFs are designed to capture & burn soot. Unburnable ash gradually collects in the filter causing excessive back pressure & regenerations. Using the FSX system, we can remove on average 95% of the ash & soot.

Replacing your DPF can cost \$3,000 to \$10,000. We can service your DPF at a fraction of the cost of a new filter. Heavy duty DPFs should be cleaned once a year or every 240,00 km, medium duty every 120,000 km.

\$250.00

for Vacuum Test and Trapblaster Clean

\$350.00

for Vacuum Test, Bake, and Trapblaster Clean
